

**Major road works in Stow on the Wold**

If you are planning to drive through Stow on the Wold, allow extra time or find an alternative route between 17<sup>th</sup> and 26<sup>th</sup> September. This is because the A429 past Stow will be closed 24/7 while the road is resurfaced and a new sewer is installed under the road. Diversions will be signposted, including an HGV route which will take lorries from the B4077 onto Buckle Street, rejoining the A429 at Bourton on the Water. Signs will be placed to deter traffic from using roads through local villages. [Click here](#) for a map of the diversions (last item on the list).

## More quarry vehicles in Temple Guiting Parish?

TGPC has objected strongly to a planning application from Oathill Quarry which would legitimise the over extraction from the site which has gone undetected by Gloucestershire County Council for several years. The quarry proposes trebling the amount extracted, from the permitted 50,000 tonnes pa to 150,000 tonnes pa, which would more than treble the number of vehicle movements, from 2 to 7 per hour. The quarry believes this increase to be ‘in the public interest’.

If you would like to add your own voice to the objections please visit the [GCC planning portal](#) or email [templeguitingparishcouncil@yahoo.co.uk](mailto:templeguitingparishcouncil@yahoo.co.uk)

The council has also responded in depth to the County Minerals Plan 2019-2032, which governs when and where further quarries (among other mineral extraction activities) will be allowed. ## Local bus

As an alternative to driving into Cheltenham, you could consider taking the bus, which runs on Tuesdays and gives you around 2 ½ hours in Cheltenham. Leaving Temple Guiting at 9.15 (Kineton 9.19), it arrives in Cheltenham at 10.38, after a change at Andoversford. The return bus leaves at 13.10 and returns to Kineton at 14.25, 14.29 at The Sherry.
